

2021-2023 AAAA Strategic Framework

Vision

Certified Anesthesiologist Assistants (CAAs) are recognized through licensure as essential to patient safety in the Anesthesia Care Team model.

Mission

Ethical advancement of the Certified Anesthesiologist Assistant (CAA) profession and to excellence in patient care through education, advocacy, and promotion of the Anesthesia Care Team.

Strategic Outcomes

Practice Expansion

AAAA is the recognized voice of the profession nationally and impacts expansion of the CAA profession to all 50 states influencing legislation, regulations and workforce policies.

Workforce Development

AAAA is the leading national resource that brings awareness to the Certified Anesthesiologist Assistants (CAA) profession and directly impacts increased matriculation of individuals into AA programs.

Professional Education

AAAA is a driving force for high-quality CAA focused educational content and meetings that help maintain professional standards and accreditation.

FY21 Strategies

Focus AAAA resources on Federal and State issues by assessing feasibility/value.

Develop AAAA resources that can be shared with AAs to speak at their alma mater.

Work in collaboration with AA partner organizations to offer joint education.

FY21 Tactics

- Develop toolkit for components
- Legislative tracking and communication to members on both federal and state issues

- Focus on improving awareness in undergraduate programs.
- AAAA to recognize clinical instructors
- Develop digital and print strategy for resources

- Develop CME schedule throughout the year
- Introduce Professional development CME activities (re: NCCAA)
